

notebook assessment services

*By colleges, for colleges*

**END POINT ASSESSMENT**

## WHO WE ARE

---

A **specialist assessment organisation** that will work closely with apprenticeship providers to understand their needs and deliver a high-quality responsive service in two distinct markets:

1. A high-quality end-point assessment organisation **by the College sector, for the College sector**
2. Supporting the Armed Forces

What sets Notebook Assessment Services apart is our dedication to a one-to-one service. We match you with a personal account manager who provides expert advice whenever you need it. Their constant support means you always know what do next, making the once confusing, complicated end-point assessment process completely stress-free.

## WHY WE DO IT

---

**Notebook Assessment Services** is an organisation created by colleges, for colleges, and as such we have an in-depth understanding of how we can best support the sector. Looking to provide a service to colleges and the armed forces that are not currently available, we are passionate about ensuring end point assessments are a smooth and seamless process. There are no private stakeholders or dividends paid to individuals, all profits are retained to put back into education and learning.

## HOW WE DO IT

---

With your own personal accounts manager and EPA coordinator, our expertly trained staff will take care of your every need, supported by a library of EPA resources, guides and mock assessment materials.
